2020  
VISION TO THE CLOUD

THIRD CLOUD SUMMIT  
February 18-20, 2020  
Renaissance Downtown  
Washington, DC

DETAILS:  
[www.cloudforutilities.org](http://www.cloudforutilities.org)

# What's YOUR 2020 vision?

ATTEND THE  
**CLOUD FOR UTILITIES**  
**THIRD CLOUD SUMMIT**  
AND JOIN THE  
CONVERSATION!

Cloud for Utilities focuses on education, career advancement, improving organization success, and advancing cloud business models in the utility industry.

**Neil Chatterjee**  
Chairman, Federal Energy Regulatory Commission

—Keynote Speaker

The **Cloud for Utilities** Summit features a unique convergence of new ideas and technologies to drive to the utility of the future. The Summit's speakers are Thought Leaders at the nexus of new technology, cyber security, finance and accounting, legal, regulatory, and policy. The Summit continues to create an environment for making new connections, and serves as a forum to discuss the transformation of the utility industry.

## 2020 PLANNED SPEAKERS

### Neil Chatterjee

Chairman, Federal Energy Regulatory Commission

INVITED

Get the facts on the regulatory impacts of Cloud for utilities

Chairman Neil Chatterjee was nominated to the Federal Energy Regulatory Commission in May 2017 and confirmed by the US Senate in August 2017. He served as Chairman from August 2017 to December 2017, and was again named Chairman on October 24, 2018.

Prior to joining the Commission, Chairman Chatterjee was Energy Policy Advisor to the US Senate Majority Leader.

### Brandon Presley

President of the National Association of Regulatory Utility Commissioners (NARUC)

INVITED

Hear about the ability of utilities to earn a rate of return on Cloud services

Commissioner Presley currently serves as President of the National Association of Regulatory Utility Commissioners (NARUC) and on the advisory committees for New Mexico State University's Center for Public Utilities and the Midcontinent Independent System Operator (MISO). He has also served as President of the Southeastern Association of Regulatory Utility Commissioners, which is composed of Public Service Commissioners from the eleven (11) Southern States and Puerto Rico, and is a former member of the board of directors of the National Regulatory Research Institute (NNRI).

### Rob Barry

Investigative Reporter, The Wall Street Journal

INVITED

Featured session moderator and speaker

Rob Barry helps lead the Wall Street Journal's investigative data team. He has reported on topics including nation-state hacking campaigns and influence operations, the unintended consequences in the fight against terror-finance, killings by police and doctors who bill Medicare millions for esoteric procedures. He was part of the team awarded the 2015 Pulitzer Prize for Investigative Reporting for a series of stories detailing Medicare overbilling and fraud. Previously, he worked at The Miami Herald, where he was a Pulitzer finalist for work on the conditions inside Florida's assisted living facilities.

## ABOUT US

### A World Leader In Cloud For Utilities

**Cloud for Utilities** is the preeminent resource for America's utility companies. As one of the first organizations focused exclusively on cloud business models for utilities, we work to provide education and best practices to help companies safeguard critical systems. Our innovative understanding of industry best practices, in-depth mastery of cutting-edge technologies, and unique proprietary platform allows Cloud for Utilities to advise companies around the world seeking to adopt Cloud technology.

Growing in recognition, today, Cloud for Utilities consists of:

- A dedicated Leadership Team
- Advisory Board
- Utilities Forums
- Membership Base
- Educational Webinars, White Papers, and Videos
- Industry Consortium
- Cloud Summit

Founded in 2017, our goal is to advance careers, improve organizational success, and further mature the business models related to various Cloud systems. Our Cloud for Utilities Summit is the first of its kind and provides a platform for utility industry leaders to learn about and address major business issues that matter most to utilities, straight from leading industry experts.

To learn more about Cloud for Utilities or how you can become a part of our organization, visit:  
[www.cloudforutilities.org](http://www.cloudforutilities.org).

## CALL-FOR PAPERS OPEN

**Utilities from across the United States participated in the Second Cloud for Utilities Summit** held in November 2018 at the Fairmont Washington, DC | Georgetown. The Summit inspires creative dialogue on pressing industry issues, including, but not limited to: cyber security, legal considerations, regulatory and financial issues, the cloud decision-making process, cloud-to-cloud integration, and more.

The Cloud for Utilities Summit draws a growing audience of Utility Executives who recognize the need for a forum that brings the conversation to the forefront of how rapidly changing technologies specifically impact our industry. This includes a combination of regulatory requirements, paradigm shifts in the customer base, security and legal ramifications that must be managed, and the bottom lines of efficiently providing the crucial life-sustaining services that our society requires.

Cloud for Utilities brings all the players together - Thought leaders who both work in and serve the Utility Industry will gather at 2020 Vision to the Cloud. Representatives from every sector are invited to come and be a part of this exciting forum—where tomorrow's ideas meet today's needs at the table. No matter how you are engaged in utilities, you won't want to miss this one-of-a-kind opportunity to participate in this innovative exchange of knowledge and experience on Cloud and how it relates exclusively to the Utility Industry.
